INTRODUCTION

Timing of the Report
Portfolio Arrangements
SPCB Practices and Procedures

SECTION 1 – EFFECTIVE SUPPORT OF MEMBERS

1.1 Freedom of Information 5
1.2 Publication of Allowances Information 5
1.3 Parliamentary Questions – SPCB Question Time 5
1.4 SPICe 6
1.5 Support to Members’ Local Offices 6
1.6 Members’ Survey 6
1.7 Appointment of Advisers to Committees 7
1.8 Prioritisation of Members’ Bills 7
1.9 Contingency Plans 7
1.10 Travel Outwith the UK 7
1.11 Officeholders 8
1.11.1 Procedures Committee Report – Crown Appointees 8
1.11.2 Reappointment of the Standards Commissioner 8
1.11.3 Reappointment of the Deputy Public Service Ombudsmen 8
1.11.4 Finance Committee Inquiry Into Accountability and Governance 8
1.12 Scottish Commission for Public Audit 8
1.13 Revision of Agreement between the SPCB and the Finance Committee 9
1.14 Services to Members in and around the Chamber 9

SECTION 2 – PARTICIPATION IN PARLIAMENTARY BUSINESS

2.1 Major Visits/Delegations to the Scottish Parliament 11
2.2 Events 12
2.2.1 Carnegie Medal of Philanthropy and International Philanthropy Symposium 13
2.2.2 G8 13
2.2.3 Malawi after Gleneagles: A Commission for Africa Conference 13
2.2.4 J8 Global Citizenship Programme Summit 14
2.2.5 Business in the Parliament Conference 14
2.3 Futures Forum 14
2.4 Festival of Politics 15
2.5 Guided Tours Service 15
2.6 Doors Open Day 16
2.7 Open House Event 16
2.8 Corporate Publications 16
2.9 Parliament Shop 17
2.10 Crèche 17
2.11 Provision of BSL Interpreters for FMQs 18
2.12 Race Equality Scheme 18
2.13 European Parliament Initiative 18
2.14 Artwork 19
2.15 Scottish Parliament Website 19
2.16 MORI Survey 19

SECTION 3 – EFFICIENT AND EFFECTIVE ORGANISATION 21

3.1 Parliamentary Staff Organisation 21
3.2 Management Plan 21
3.3 Staff Related Issues 24
3.3.1 SPCB Equal Opportunities Report 2004 24
3.3.2 Staff Survey Report 24
3.3.3 Smoking Policy 24
3.4 Finance 24
3.4.1 Annual Accounts 24
3.4.2 Short Money 26
3.5 Audit Advisory Board 26
3.6 Cost Recovery and Commercial Activities 26

SECTION 4 – HOLYROOD BUILDING 27

4.1 Parliament Building 27
4.1.1 Chamber Incident 27
4.2 Security Issues 28
4.2.1 Strategic Review of Security 28
4.3 Facilities Management 28
4.3.1 FM Helpdesk 28
4.3.2 Cleaning 28
4.3.3 Environmental Management 29
4.3.4 Cycle Friendly Employer’s Award 29
4.3.5 Health and Safety 29
4.3.6 Fire Safety 30
4.4 BIT 30
4.4.1 BIT Helpdesk 30
4.4.2 Blackberry Roll Out 30
4.4.3 IT Training for Members’ Staff 30

SPCB STAFF ORGANISATIONAL STRUCTURE 33

CONTACTS 35
FOREWORD

This report covers the period from April 2005 to March 2006 and is the first report to cover a full year in our permanent home at Holyrood. Indeed, with the move into our new home, much of the focus of the work of the Corporate Body has changed to ensure that all of those wishing to participate in parliamentary business or who just wish to visit this unique building can do so. However, as always, this report allows Members of the Scottish Parliament to see what has been achieved over the year and how the money allocated to the Parliament has been spent on all areas. This is an important role for the SPCB in its interaction with Members who elected it to act on their behalf to ensure the provision of the property, staff and services required for the Parliament’s purposes.

This year’s report follows the same format as previous years with the structure reflecting our management plan and which, quite appropriately has support to Members as our main priority. The report also includes details of the work which has taken place to promote participation in Parliamentary business as well as highlighting a number of high profile events which have taken place at Holyrood over this time.

I hope that you find this Report helpful in providing an understanding of the issues discussed and decisions taken by the Corporate Body.

Presiding Officer and Chair of the Scottish Parliamentary Corporate Body
INTRODUCTION

During this reporting period, membership of the Scottish Parliamentary Corporate Body (SPCB) saw 2 changes. Robert Brown MSP was replaced by Nora Radcliffe MSP in June 2005, whilst in January 2006 Andrew Welsh MSP stood down from the SPCB and was replaced by Kenny MacAskill MSP. The membership now comprises George Reid MSP, Kenny MacAskill MSP, Duncan McNeil MSP, Nora Radcliffe MSP and John Scott MSP.

Portfolio Arrangements

The portfolio arrangements enable SPCB members to have oversight for specific issues and areas and for those members to answer PQs relating to those areas on behalf of the SPCB.

The portfolio arrangements continue to prove beneficial in providing the opportunity for SPCB members to input into the preparation and resolution of issues.

Following the arrival of the two new members, the portfolio arrangements were reviewed. It was agreed that these should mirror the structure within the Parliament. The portfolio arrangements at the end of this reporting period were therefore as follows:

Kenny MacAskill MSP  Directorate of Technology and Facilities Management which includes building maintenance, IT and local office support

Duncan McNeil MSP  Access and Information Directorate which includes visitor services, events, public information, education and outreach, SPICe and the editorial content of the website and intranet as well as broadcasting and the broader aspect of media relations

Nora Radcliffe MSP  Resources and Governance Directorate including Procurement, Allowances and Finance Offices

John Scott MSP  Resources and Governance Directorate including Corporate Policy Unit (governance, officeholders, equalities) and Personnel Office

SPCB Practices and Procedures

During the course of this reporting year, we updated our practices and procedures to reflect the introduction of a number of initiatives such as SPCB oral question time as well as the revision of the portfolio arrangements. These procedures govern the workings of the SPCB and the SPCB secretariat and a copy of these can be found on SPEIR or by following the attached link.
SECTION 1: EFFECTIVE SUPPORT OF MEMBERS

1.1 Freedom of Information

The Freedom of Information (Scotland) Act (FOISA), which came into effect at the beginning of 2005, continued to have an impact on the work of the SPCB and staff within the Scottish Parliament.

Over this reporting period, a total of 292 FOI requests were received. These requests covered topics as diverse as:

- The cost of the Holyrood building grass roof harness system and annual costs for roof maintenance;
- Information concerning the maintenance and construction of the Holyrood chamber roof;
- The Scottish Parliament’s records management policy and e-mail best practice guidance;
- Time for Reflection Guidance; and
- Correspondence between the Presiding Officer and Sir Sean Connery.

1.2 Publication of Allowances Information

In order to ensure that the Scottish Parliament’s allowances system is as open and accessible as possible, and with our obligations under FOISA in mind, it was agreed that all Members’ allowances information should be published on the Parliament’s website.

A joint MSP/parliamentary staff working group was established to report on the options for publication. After careful consideration of the group’s report, the Corporate Body agreed the format and content of the information to be published and, following a great deal of work, the first ‘batch’ of on-line allowances information – quarters 1 and 2 of 2005-06 – was published in June 2006.

We consider that the facility, which allows members of the public to view and search on-line MSPs claims and accompanying receipts in respect of allowances claimed while carrying out parliamentary duties, was an important step in ensuring that the work of the parliament continues to be as open and transparent as possible.

1.3 Parliamentary Questions – SPCB Oral Question Time

Over the course of this reporting year, we answered 139 written questions covering a wide range of topics and covering our full range of activities.

In addition to this, following the successful pilot of an SPCB oral question time, 2 more question time sessions were held in the Chamber on 1 February 2006 and 10 May 2006. These sessions, which allow MSPs to ask the SPCB about issues dealt with by the Corporate Body, continued to be well attended.
with a wide range of subjects being discussed. Copies of the questions asked and the responses given can be found on the Parliament’s website.

1.4 SPICe

The Scottish Parliament Information Centre (SPICe) provides a fast and efficient research, information and documentation service to MSPs, their staff and parliamentary staff. Over the period of this annual report the Information Centre answered over 10,000 enquiries and published 95 in-depth briefings to support the work of parliamentary committees and individual Members. SPICe also provided over 100 briefings to inform the work of the Public Petitions Committee and numerous background papers to support the work of other committees throughout the parliamentary year. SPICe provided research resources for every parliamentary debate and tracked the progress of each bill on the website. This year SPICe also provided briefing material to support the Festival of Politics, the Parliament-led Futures Forum and attendance by Members at the annual Commonwealth Parliamentary Association Conference.

1.5 Support to Members’ Local Offices

In March 2004, the SPCB approved a number of recommendations to improve support to Members’ local offices.

Following the implementation of these recommendations, a survey of Members’ local office staff was carried out to assess the impact of these changes as well as to discover any further action which could be taken to improve support.

An action plan was subsequently drawn up which continued to take forward the SPCB’s ongoing commitment to local offices by implementing actions which had arisen from the survey. These included running local office staff events within the Parliament as well as the creation of a directory of support services which can be used by Members’ staff.

1.6 Members’ Survey

The SPCB is constantly seeking to provide the best possible services to MSPs and their staff. An important tool to help us assess how Members and their staff rate the services we provide is through our Members’ Survey.

This survey, which was issued in June 2005, was the second such survey, and sought the views of Members and their staff on the wide range of services provided by the SPCB.

We were pleased to note the number of positive results across the wide range of parliamentary services, but to ensure that our services continued to meet the high expectations, an action plan was put in place to address those areas of concern which were identified.
1.7 **Appointment of Advisers to Committees**

The SPCB considers all requests for the appointment of advisers to committees where the appointment is for more than 15 days or at a higher rate than the standard daily rate of £137. During the course of this reporting year, the SPCB considered and agreed applications from the Education, Subordinate Legislation and Enterprise and Culture Committees.

1.8 **Prioritisation of Members’ Bills**

In May 2005 it became clear that the Non Executive Bills Unit (NEBU) was reaching capacity in terms of the number of bill proposals it could support. In order to ensure that there were adequate resources available, we agreed that prioritisation criteria should be applied to those proposals which NEBU was currently supporting.

Following the application of the criteria, we prepared a report setting out a list of those proposals to be taken forward, and invited Parliament to endorse the report. After an interesting and well attended debate on 26 October 2006, the Parliament endorsed both the prioritisation criteria and the bill proposals which would be taken forward by NEBU.

1.9 **Contingency Plans**

Part of our role in ensuring that the Parliament has the accommodation and services it needs, is to ensure that adequate contingency plans are in place should the Chamber and/or other areas of the Parliament become unavailable. These contingency plans cover an emergency situation where the imperative is for the Parliament to meet as quickly as possible as well as offering a more fully resourced plan.

We have continued to review these contingency plans over the course of the past year to ensure that they meet the needs of the Parliament.

1.10 **Travel Outwith the UK**

Under the arrangements for the registration of Members’ Interests, where the SPCB approve in advance the receipt by Members of travel and hospitality etc, the Member does not then have to register that receipt with the Register of Members’ Interests. During this reporting period, the SPCB considered 26 such applications and approved the details of the travel and other associated costs. These included:

- A CPA Cross-Party delegation visit to South Africa and Malawi
- Subordinate Committee attendance at Conference on detailed legislation taking place in Australia
- European and External Relations Committee visit to Brussels to meet senior figures such as the Presidents of the EC and EP, European Commissioners, MEPs and senior officials.
1.11 Officeholders

1.11.1 Procedures Committee Report – Procedures Relating to Crown Appointments

On 9 March, the Procedures Committee published its report in relation to Crown appointees. We welcomed the Committee’s recommendations and have already implemented a number of the recommendations. We are also currently working with officeholders and an independent assessor to put in place an annual appraisal process.

1.11.2 Reappointment of the Standards Commissioner

During this reporting period, the existing contract of the Standards Commissioner was due to expire. The Corporate Body had responsibility for overseeing the appointment/re-appointment process and for making a recommendation to Parliament.

On March 16 2006, the Parliament approved our recommendation and the reappointment of Jim Dyer as Standards Commissioner for a period of three years.

1.11.3 Reappointment of the Deputy Scottish Public Services Ombudsmen

Following the recommendations of the Procedures Committee, the SPCB convened a reappointment panel to consider the three part-time Deputy Ombudsmen for reappointment for a second term. The process was overseen by an independent assessor.

On 13 September 2006, the Parliament approved our recommendation and the reappointment of Carolyn Hirst, Eric Drake and Lewis Shand Smith as Deputy Public Services Ombudsmen for a period of 12 months.

1.11.4 Finance Committee Inquiry into Accountability and Governance

At the beginning of March 2006, the Finance Committee wrote to the SPCB to announce that it was conducting an inquiry into the accountability and governance of commissioners, ombudsman and others with a regulatory role that were set up since the establishment of the Parliament.

Given the role of the SPCB in these matters, we were invited to submit evidence on a number of issues raised by the Committee. We welcomed the opportunity to feed into this inquiry and hope the Committee found it useful.

1.12 Scottish Commission for Public Audit – Appointment of Members

Under the Standing Orders Rule 3.13, members of the Scottish Commission for Public Audit are appointed by the SPCB, which is then required to seek the agreement of the Parliament for any appointment by way of a motion.
In October, Parliament considered a motion by the Corporate Body and agreed the appointment of Margaret Smith MSP to the Commission in the place of George Lyon MSP.

1.13 Revision of Agreement between the SPCB and the Finance Committee

The Finance Committee is responsible for scrutinising budget proposals for bodies which draw funds from the Scottish Consolidated Fund, namely the Scottish Executive, the SPCB and Audit Scotland. Written agreements are in place between the Finance Committee and the SPCB on the budgeting processes which are adopted.

During the course of the year, this agreement was amended to extend the deadlines by which the SPCB is required to submit its expenditure proposals to the Finance Committee and to simplify the procedure where a provisional expenditure plan does not require to be submitted.

1.14 Services to Members in and around the Chamber

The SPCB is responsible for ensuring that all MSPs have access to relevant documents and information services during Chamber business. Following approaches by a number of Members regarding problems being encountered in and around the Chamber, we undertook to take steps in order to ensure that this service was as efficient as possible. As a result we established a desk in the Press Conference Room to enable a member of SPICe staff to be located there and answer queries from Members and monitor document supplies in the Chamber.

In addition, on business days the Press Conference Room is now also used as a Members’ lounge with tea, coffee and fruit being available. We also made available two workstations with PCs and a printer for Members to use. This facility has proved to be extremely popular especially during Stage 3 debates.
SECTION 2: PARTICIPATION IN PARLIAMENTARY BUSINESS

2.1 Major Visits/Delegations to the Scottish Parliament

Interest in the Scottish Parliament and the building continued to be high over the course of this reporting period, with ELU organising over 150 visits during this time. These included:

18 – 22 May 2005 The Presiding Officer represented the Scottish Parliament at the Committee of the Regions “European Summit of Regions and Cities” in Wroclaw, Poland attended by over 400 delegates.

2 – 4 June 2005 The Speaker of the Icelandic Parliament and a delegation of Members met with the Presiding Officer and Members to further strengthen the links between both Parliaments.

5 – 6 June 2005 The President of the Parliament of Catalonia led a delegation which visited the Scottish Parliament and met with the Presiding Officer and Members over a 3-day series of meetings and events.

5 July 2005 The closing ceremony of the J8 Summit was held in the Scottish Parliament. The ceremony took the form of African Drumming Workshops, presentations and speeches in the Chamber and a Reception in the Garden Lobby.

22 September 2005 The Parliament hosted the Festival of Food event which brought in food demonstrations from Austria, Czech Republic, France, Ireland, Italy, Japan, Poland, Spain and Slovenia.

3 October 2005 Dr Zhou Ji, Chinese Minister for Education visited the Scottish Parliament and paid a courtesy call on the Presiding Officer.

1 November 2005 The Estonian Foreign Minister, Mr Urmas Paet, visited the Scottish Parliament. During the visit Mr Paet met with the Presiding Officer for a courtesy call and attended a Reception hosted by the Presiding Officer, at which the Estonian National Male Voice Choir sang. An “Estonian Days in Scotland” Exhibition, which highlighted the links between Scotland and Estonia, was also held in the Scottish Parliament.

3 – 5 November 2005 The “Malawi after Gleneagles: A Commission for Africa Case-Study” conference was attended by 200 delegates included HRH The Princess Royal, HE Bingu wa Mutharika, President of Malawi, Thandika Mkandawire, Director, United Nations Research Institute for Social Development and Sir David Steel KBE.
A cross party delegation of 7 Members from the Commonwealth Parliamentary Association (Scotland Branch) visited Malawi to continue to build the on-going relationship between Malawi and Scotland at parliamentary level.

The Women’s National Commission (WNC) arranged for 4 women from Iraq, on a 4-week internship programme in the UK to meet women MSPs with an interest in equality issues and see how Scotland incorporates gender equality and human rights values in its policies and government.

The Speaker of the Burundi National Assembly plus delegation visited the Scottish Parliament to strengthen their understanding about devolution and to see first hand how the Parliament operates. They met with Members of the Procedures Committee.

The President of the Balearic Isles visited the Scottish Parliament and met with the Presiding Officer.

2.2 Events

A measure of the success and impact of the Holyrood building has been the high number of event organisers who sought to use the building as a venue. This level of interest is encouraging and sits well with the Parliament’s aim to be open and accessible to all, and is evidence of the Scottish Parliament’s fulfilment of one of its purposes, which is to encourage public engagement. The Corporate Body strongly supports the principle that the building, as well as the Parliament itself, belongs to the people of Scotland. However, given that the Corporate Body’s function is to provide the Parliament, or ensure that the Parliament is provided, with the property, staff and services required for the Parliament’s purposes, it must ensure that the provision of events does not frustrate other purposes of the Parliament.

There was a five fold increase in the number of events following migration to the new building with around 20,500 people attending events as diverse as a live music event for the Cross Party Group on Contemporary Music, a reception to mark Scottish Inter-Faith Week and the Carnegie Awards ceremony.

To ensure that adequate resources were available to host these events, the Corporate Body agreed a policy on events which provides a number of measures including a set of objectives and criteria to be applied to requests for events.

In total there has been over 250 events including briefings for Members, receptions and seminars on topics that were linked to parliamentary business and which supported Members in their wider role.
As well as the high number of events which the Parliament hosts on a day to day basis, we have hosted a number of very high profile events which have promoted the Parliament to a world wide audience. More details on these events can be found below.

2.2.1 Carnegie

In October 2005 the Scottish Parliament hosted the Carnegie Medal of Philanthropy and International Philanthropy Symposium, an event which honoured international philanthropists from across the world. This was the first time the ceremony was held outside the United States. Delegates commenced the day with 6 concurrent workshops on Poverty and Health; Environment and Sustainable Development; Education; International Peace, Justice and Security; Democracy, Governance and Civil Society; and Legal, Fiscal and Governance.

Past Carnegie Medal recipients and other distinguished guests from around the world attended the Carnegie Medal Ceremony which took place in the Chamber, hosted by the Presiding Officer and compered by BBC broadcaster and journalist Sally Magnusson. The 2006 medal winners were The Aga Khan, Agnes Gund, Sir Tom Farmer, Eleanor Hewlett Gimon on behalf of the Hewlett Family, Anna Southall on behalf of the Cadbury Family and Susan Packard Orr on behalf of the Packard Family.

2.2.2 G8

July 2005 saw the G8 summit held in Gleneagles. Over the course of the summit, a great deal of attention was focused on Edinburgh with a number of marches and protests taking place during this time.

While not directly involved, this had a major impact on us in terms of security both for passholders and non-passholders with special arrangements being put in place to ensure that all of those working in or visiting the Parliament could do so safely.

2.2.3 Malawi after Gleneagles: A Commission for Africa Case-Study Conference

The “Malawi after Gleneagles: A Commission for Africa Case-Study” conference in November was attended by 200 delegates including HRH The Princess Royal, HE Bingu wa Mutharika, President of Malawi, Thandika Mkandawire, Director, United Nations Research Institute for Social Development and Sir David Steel KBE.

The twin objectives of the Conference were to inform Scottish public opinion, and a wider audience, about Malawi’s developmental needs and priorities and to consider the implications for Malawi of the conclusions reached by the Commission for Africa and the Millennium Development Goals Summit held earlier in the year. For the President and his government, the conference offered an opportunity to showcase their reform agenda and also increase
awareness in Scotland of the problems faced by developing countries. It also demonstrated Scotland’s sustained interest in development issues in general - and Malawi in particular - beyond the G8 summit, and built on strong and continuing links between Scotland and Malawi. There was a very strong Malawian presence, including key ministers and senior officials, parliamentarians, academics, representatives of faith organisations, NGO leaders and a business delegation.

2.2.4 J8 Global Citizenship Programme Summit

The closing ceremony of the J8 Global Citizenship Programme Summit was held in the Scottish Parliament in July. The J8 (which gives young people the opportunity to express their opinions on global issues) used the G8 Gleneagles Summit as a framework within which to investigate issues such as international development, trade, climate change and health. A competition across all UK secondary schools invited schools to participate in a J8 Summit competition; the challenge was to produce their own communiqué on one of the two themes that Prime Minister Tony Blair had announced as the main focus of the G8 Summit, Africa and climate change.

The 10 winning school groups from the UK joined with young delegates from each of the other G8 countries (France, Germany, the US, Canada, Japan, Italy and Russia) in Edinburgh and debated topical issues such as poverty, trade and employment. The closing ceremony took the form of African Drumming Workshops, presentations and speeches in the Chamber and a Reception in the Garden Lobby.

2.2.5 Business in Parliament Conference

The Enterprise and Culture Committee co-hosted the 2nd Business in Parliament Conference along with the Scottish Executive. This 2-day event was attended by over 200 business people from all across Scotland, offering the opportunity to discuss their priorities with Ministers and MSPs.

Over half of the delegates that attended filled in feedback forms, with well over 95% of these rating the conference as "good" or "excellent". The comments from delegates also demonstrated strong support for a similar event again, and a number of suggestions for future themes were given.

It was agreed that a third such conference should be held and a report on this event will be included in next year’s report.

2.3 Futures Forum

During the year, Scotland’s Futures Forum established itself at Holyrood and is now an important resource for MSPs. The Forum has developed a very successful international lecture series, cafe events, and has undertaken a year long futures project - looking at the positive aspects of Scotland having an ageing population - the results of which will be published in January 2007.
During 2006, the Forum has successfully brought fresh perspectives and new ideas to Holyrood and brought business and academics around the table with MSPs and policy makers. This participative style has proved very popular with businesses, universities and community groups, and very useful to MSPs. With nearly 1000 members, and a newly published prospectus for 2007-2011, the Forum looks set to continue being a valuable asset to the Scottish Parliament and its Members in the coming years.

Details on how organisations can become involved in the Forum's work can be found at [www.scotlandfutureforum.org](http://www.scotlandfutureforum.org)

### 2.4 Festival of Politics

August 2005 witnessed a ground-breaking addition to the Edinburgh festival season, when the Scottish Parliament hosted the inaugural Festival of Politics.

The Festival of Politics set out to demonstrate that politics is diverse and for everyone, not just for politicians, and that Holyrood can engage people in politics in new and innovative ways.

The Festival presented the public with a unique opportunity to take part in a range of debates and events bringing together the worlds of politics, media and the arts, with the Parliament’s Chamber hosting events featuring nationally and internationally renowned figures. Here, Oscar-winning actress Vanessa Redgrave gave her personal view on the importance of human rights, and renowned BBC journalist Andrew Marr examined the relationship between the media and democracy.

In total some 3,000 people from Scotland, the rest of the UK and abroad attended 22 events in the Parliament during the 3 days of the Festival. Festival events held in the Chamber were simultaneously webcast, providing potential exposure to a global audience. The Festival was extremely well received by the public, with 95% of audience members surveyed rating the events they attended as good or very good.

Given the success of the inaugural Festival of Politics we agreed that an expanded event should be held in August 2006. Our next report will contain a summary of the 2006 event and a report on the outcomes.

### 2.5 Guided Tours Service

During the course of the year we continued to operate the guided tour service for visitors to the Holyrood building. These tours continued to be extremely popular with over 73,500 people taking advantage of this service (1 in 5 of all visitors).

In order to maintain this level of service, we took the decision to review the content and structure of the tours. We extended the duration of the tours to one hour and they now run at 20 minute intervals. They cover the powers of
the Parliament, how the Parliament works, the role of key figures, the role of MSPs, the work of Committees and the legislative process in much more depth than previously. They also include much more information about what happens in each space in the building rather than simply focusing on the building itself.

2.6 Doors Open Day

The Parliament was invited to take part in Edinburgh’s Doors Open Day, which took place on September 24th 2005. Doors Open Day is part of a Europe-wide, free public celebration of architecture.

We had previously taken part in Doors Open Day when we were based in our interim accommodation. However, in 2004, because of migration and the date of the Official Opening we did not have the necessary resources available to take part.

It was agreed that taking part in 2005 event would be an excellent opportunity to engage the Scottish public with the new building, around the time of our first anniversary.

The day itself proved an enormous success with over 4,200 visitors attending and a great deal of positive feedback being received.

2.7 Open House Event

During March 2005, we held an Open House Programme which was attended by over 1000 members of the public. The programme involved 15 information and discussion workshops and 4 seminars, organised collaboratively with outside organisations. Both the workshops and seminars explored and explained different aspects of how the Parliament works and allowed plenty of space for debate and discussion. Nine MSPs and one MP were involved in Open House events and the seminars were webcast live.

The Director of the Scottish Storytelling Centre provided a session illuminating the long tradition of the idea of ‘the commonweal’ and common political purpose in Scottish history.

The linking of the Parliament and politics with poetry, the oral storytelling tradition and banner-making connected us with new and different networks of people, many of whom had not engaged with the Parliament before. Sessions designed for children were very much appreciated and allowed families to enjoy a day in the Parliament together.

2.8 Corporate Publications

Over the past year, we have continued to produce public information material covering a wide range of topics. Publications issued over this period included:
• A series of 4 colourful booklets for use in upper Primary school classes. Leaflets covering Devolved Matters, Visiting the Scottish Parliament, The Work of MSPs and School Councils were produced in English and Gaelic.

• Official Report leaflet containing information about the Official Report – including information on how to view official reports online.

• ‘Representing People of Scotland’ - This leaflet outlined the roles and responsibilities of the different institutions that represent the people of Scotland.

• Festival of Politics Programme – which was delivered all across Scotland.

• Public Information’s booklet 'How the Scottish Parliament Works' was published in Arabic, Bengali, Chinese, Punjabi and Urdu versions on 23 May. This was launched at an in-house training event, organised by Visitor and Outreach Services, for the Council of Ethnic Minorities Voluntary Organisations. Community workers, teachers and volunteers from such organisations as the Pakistani Society, the Edinburgh Chinese School and the Communities Minorities Association had a chance to see the range of literature now provided by the Parliament in their language. The event provided a good forum to network and gather further ideas for increasing participation, especially with regard to ways to present information in publications, on websites and to groups.

2.9 Parliament Shop

The Parliament shop continues to be a popular draw for visitors to the Parliament, stocking a wide range of items including Parliament branded whisky, chocolates and postcards. In addition to this, our bestsellers include the range of books now in stock, including one on the construction of the Parliament building itself. During the course of this reporting year, there was an average spend of £4.50 per customer.

2.10 Crèche

One of the unique services of our new building is our crèche which is open to visitors to the building and is a public service to encourage and enable people with children to visit the Parliament.

We are dedicated to making this service, the only public facility of its kind in Europe, work. However, over the initial couple of years, the crèche has required a significant level of subsidy to maintain the service. We agreed, therefore, that a crèche advisory group should be set up to consider all options for making the crèche a viable service.
This group, which consisted of MSPs, MSPs' staff and Parliament officials was chaired by SPCB member Nora Radcliffe MSP, and looked at all options for improving the existing arrangements.

Following the work of the group and after further consideration, we agreed that the crèche should, in addition to its existing service, be opened to all pass holders on a drop in basis for up to four hours and that further work to promote the crèche should be undertaken. These measures have already provided a level of success with the increased promotion – which included promotional leaflets and colourful stickers – leading to an increase in the number of children using the crèche.

We continue to look at options for improving the crèche and a further update on this service will be included in next year’s report.

2.11 Provision of BSL Interpreters for FMQs

As we reported last year, it is the policy of the SPCB to provide sign language interpreters automatically for all debates and meetings dealing with issues relating to the deaf and hard of hearing. In addition to this, we ran a short pilot scheme to provide interpreters for First Minister’s Question Time (FMQT) and Question Time (QT).

Following completion of this pilot, we looked at the technological options available in relation to providing BSL interpreters for FMQT and QT.

Whilst it was agreed that a routine interpreter service would not be provided for FMQT and QT at this point, we agreed that the service should still be available on request and access to parliamentary business through the current available services should be actively promoted. This was done through contacting relevant organisations and making them aware of this service.

2.12 Race Equality Scheme

The SPCB, along with other public bodies, is subject to the provisions of the Race Relations (Amendment) Act 2000. Under this Act, we are required to prepare and publish a race equality scheme and to review that scheme every three years. As the original scheme was prepared and published in 2002 the first review took place in November 2005. A revised Race Equality Scheme, incorporating a new action plan, was published on the Parliament’s website as part of the Equality Framework.

2.13 European Parliament Research Initiative - Knowledge Workshop

A workshop hosted by the European Parliament on 'Parliamentarians and Technology-Enabled Communications' took place on 23 and 24 May. Andrew Welsh MSP participated in the workshop and provided a 'position paper' and examples of our e-democracy experience for use by the other participants. Extremely positive feedback was received at the workshop on the Scottish
Parliament's innovation and commitment to the use of new technologies and mechanisms for promoting e-democracy.

2.14 Artwork

An important aspect as we settled into our new building was the introduction of artwork throughout the parliamentary campus. The collection consists of paintings, sculptures, furnishings and tapestries by Scottish and International artists. In order to ensure that this artwork was properly catalogued and cared for, we appointed an art curator who began work in April 2005.

In addition to looking after our existing collection, the curator is also responsible for taking the collection forward by looking at acquisitions and loans as well as the use of temporary displays and exhibitions. Over the past year, these have included:

- Loan of five works by Calum Colvin;
- Loan of John Smith bust by Eduardo Paolozzi from Sir Angus Ogilvie; and
- Temporary loan of Dovecot tapestry

To help the art curator take forward this work, an Art Advisory Group has been created which consists of MSPs and external members.

2.15 Scottish Parliament's Website

During the course of the past year, the section on the Scottish Parliament’s website about the Holyrood building was redeveloped and updated following the opening of the building. This section now includes much more information about the buildings and the project history. There are also sections about the design of each of the buildings, their artwork and sustainable features. There is also a catalogue of photos and images and a useful FAQ section on a whole range of subjects, from quotations to using electricity.

2.16 MORI Survey

We had previously agreed that the Parliament should purchase a module of questions in the first MORI Social Attitudes Survey which was launched in January 2005. The questions covered the level of public awareness of the role and work of the Parliament, public attitudes towards the Parliament, and perceptions of the impact of the Parliament on people’s lives.

The survey covered a representative sample of the Scottish public. From a total sample of 1,858 addresses, 1,087 interviews took place with households and 1,003 adults within responding households. This gave a response rate of 65% for sampled households and 60% for randomly selected adults.
The survey findings, which we received in January 2005, were largely positive and showed that support for the Parliament remained strong. We were pleased by the results of this survey and continue to look at methods of tracking public attitude in relation to the Parliament.
SECTION 3: EFFICIENT AND EFFECTIVE ORGANISATION

3.1 Parliamentary Staff Organisation (PSO)

Part of ensuring that the correct services are being provided to Members is ensuring that the correct support structure is in place. A current chart of the organisation’s structure can be found at page 33. The number of full-time equivalent staff in post at the end of March 2006 was 497.2; the staff turnover was 6.4%.

3.2 Management Plan

The Management Plan has evolved over recent years as we have sought to improve the format and information contained in it. The Plan is an essential tool for ensuring that the organisation has clear and measurable objectives. It also forms an integral part of the budgetary process so this year we brought forward the timetable for the publication of the Plan to align it as far as possible with the budgetary timetable.

As with previous years, the Management Plan described the high level corporate aims and objectives. Individual Directorate and Office plans contained far more detailed objectives and targets for all services within the Parliament.

The aims of the plan are to:

- establish, agree and communicate our strategic priorities, which will assist us in informing decisions on resource allocations; and

- provide assurance that the key priorities are being delivered.

A list of the strategic and annual priorities we agreed is detailed on the following pages.
SPCB CORPORATE MANAGEMENT PLAN 2006/07

Our plan

The creation and implementation of our management plan is guided by our purpose, aim and values. These are:

**Purpose**

The Parliament exists to determine, debate, decide and legislate on issues of importance to the people of Scotland. In doing so, it holds the Scottish Executive to account and is answerable to the people of Scotland.

**Our purpose, as the staff organisation, is to support the Scottish Parliament in fulfilling its constitutional role as a representative and legislative body.**

**Aim**

In fulfilling this purpose, we aim to

- ensure that parliamentary business – in particular, the development, consideration and scrutiny of policy and legislation – is carried out in an environment that encourages political debate, innovation and progress;
- provide a platform for Scottish influence at home and abroad;
- encourage and develop public awareness of and engagement with the parliamentary process; and
- be an efficient, innovative and effective organisation that demonstrates mutual respect and equal opportunities.

**Our Values**

- **Integrity**
  - We demonstrate high standards of honesty and reliability.
- **Impartiality**
  - We are fair and even-handed in dealing with members, the public and one another.
- **Professionalism**
  - We provide high-quality professional advice and support services.
- **Client Focus**
  - We are responsive to the needs of members, the public and one another.
- **Efficiency**
  - We use resources responsibly and cost-effectively.
- **Mutual Respect**
  - We treat everyone with respect and courtesy and take full account of equal opportunities issues at all times.

3.3 **Staff Related Issues**

3.3.1 *SPCB Equal Opportunities Report 2004* - The SPCB’s Equality Framework Action Plan states that each year the SPCB will publish an annual equal opportunities report. This report should enable the organisation to take stock of its achievements in this area and also to publicise the work that it has delivered to ensure its own compliance with equal opportunities legislation and to promote wider access to the Parliament over the past year. During the period covered by this Annual Report, the SPCB has approved both the 2004 and 2005 Equal Opportunities Reports and arranged for them to be published on the Parliament’s website. A copy of the Reports were also sent to the Convener of the Equal Opportunities Committee.

3.3.2 *Staff Survey Report* – A report on the findings of the staff satisfaction survey was presented to the SPCB in May. The purpose of the report was to help senior management better understand staff attitudes and concerns and inform actions to make improvements where appropriate. The SPCB agreed a number of actions aimed at addressing the issues raised by the survey including the establishment of a variety of improvement groups to develop specific ideas or suggestions as solutions. The Corporate Body was pleased to note, however, that the over-riding message coming out of the survey was that staff were proud to work for the Parliament and believed that the Corporate Body was a good employer. We continue to work to ensure that this remains the case.

3.3.3 *Smoking Policy* – In anticipation of the proposed legislation on smoking, the SPCB considered the potential impact for Holyrood and agreed in principle to close the smoking room available at the time and to provide alternative, external facilities. We also agreed that no additional facilities would be provided for visitors to the Parliament.

The timescale for this was phased to coincide with the new legislation becoming available in order to ensure that any facilities provided complied with the detailed requirements of the legislation. This preparatory work ensured a smooth transition when the legislation was subsequently passed and implemented.

3.4 **Finance**

3.4.1 *SPCB Expenditure for the 12 Months Ended 31 March 2006*

We have prepared separate annual accounts for the 2005-06 financial year that comply with the accounting principles and disclosure requirements of the Government Financial Reporting Manual. The Auditor General for Scotland has audited these accounts and they were laid before the Parliament on 5 December. A summary of the expenditure is set out below.

We continue to live within our budgets. Our net revenue expenditure on staff, property and administration costs in 2005-06 was £63.0m, £1.6m less than the available budget. Part of that difference (£0.9m) represents lower funding
requirements in the year for Commissioners and Ombudsman. The remaining £0.7m variation is explained by lower general administration costs for the SPCB than budget.

The value of the Holyrood building was adjusted by use of RICS Tender Price Indices in 2005-06 resulting in an uplift to the value of £5.8m which was recognised through the SPCB’s Operating Cost Statement.

Capital expenditure in 2005-06 of £0.8m related largely to IT software and hardware. This was less than the available budget reflecting that the budget provision was not fully required in 2005-06.

**SPCB Expenditure for the 12 Months Ended 31 March 2006**

</tr>
</tbody>
</table>
Notes

Note 1: Revenue expenditure of £62.0m in 2005-06 included parliamentary staff salaries of £20.6m and MSP salaries of £9.7m. Members’ costs, which enable MSPs to secure staff and accommodation to assist them in the discharge of their parliamentary duties, were £9.6m. A further £5.1m was expended on funding the salaries and running costs of the Commissioners and Ombudsman. The remaining £17.0m met the administration and property running costs of the Parliament.

Note 2: Capital charges were introduced by the Resource Accounting Manual to reflect the depreciation in value of assets and the cost of capital. The charge for 2005-06 was £23.4m adjusted for an uplift in the indexation value of the Holyrood building of £5.8m resulting in a net charge of £17.6m for 2005-06.

3.4.2 Financial Assistance for Registered Political Parties

Under the Financial Assistance for Registered Political Parties Order 1999, the registered political parties in the Parliament are entitled to monies to assist their Members to carry out their parliamentary duties. In the financial year ended 31 March 2006 we paid out a total of £337,705 under the Order.

3.5 Audit Advisory Board

In 2005, the Corporate Body approved extensions to the contracts for the two independent members of the Audit Advisory Board – Mr Niall Lothian and Mr Robert Bertram. Following the resignation of Robert Brown MSP from the SPCB and the review of our own portfolio arrangements, we confirmed John Scott MSP to join Duncan McNeil MSP as the second SPCB member on the AAB.

3.6 Cost Recovery and Commercial Activities

One of the many roles of the Corporate Body is to ensure that the budget is spent appropriately and that we achieve best value. One aspect of this has been to consider what costs we should be looking at recovering for events and to look at issues relating to the commercial use of the premises.

These are complex issues requiring legal as well as expert advice. We agreed that prices in the shop and on-line shop and the issue of guided tours should be reviewed as part of the Visitor Services and Events Review. We also agreed that commercial events in the Parliament should not be pursued at the current time but that officials should continue to look further at means of cost recovery.

This work is ongoing and the Corporate Body will keep Members updated.
SECTION 4: HOLYROOD BUILDING

4.1 Parliament Building

This period saw our first full year in our new home at Holyrood. During this time, the building remained a huge draw for visitors as well as attracting a number of architectural awards. These included:

- The 2005 RIAS Andrew Doolan Award for Architecture, which recognises the best new building in Scotland;
- A specialist award at the Royal Fine Art Commission Trust's Building of the Year Award 2005 at London's Savoy Hotel;
- The Best Publicly Funded Building prize and the main award, the Architecture Grand Prix, at the Scottish Design Awards ceremony; and
- Spain's greatest architectural prize in April from the VIII Biennial of Spanish Architecture. Judges awarded the building, the Manuel de la Dehesa prize, which is known as the ‘Premio de Arquitectura’.

In addition to these, the Parliament Building won the prestigious RIBA Stirling Prize Award.

4.1.1 Chamber Incident

On 2 March 2006, an oak strut came loose from the roof of the debating Chamber. The incident led to business being suspended for the remainder of that day.

Using the contingency plans referred to in section 1, we put in place arrangements for the use of The Hub in Edinburgh, as an immediate alternative to the Chamber.

Over the ensuing period, we worked closely with officials and engineers to examine what had happened, to consider what the problem was and to identify a safe and practical permanent solution.

We agreed that the repairs to the Chamber roof would take place in two stages. Stage 1 would be a temporary fix to enable business to get under way safely in the Chamber as quickly as possible.

Whilst this work was taking place, we reviewed the arrangements at the Hub and took the decision to relocate to Committee Room 2 within the Parliament. This meant that MSPs were closer to their offices and proved to be a more convenient location.

Following the completion of the stage 1 repairs, the Parliament moved back into the Chamber on 10 May 2006. The detail of the stage 2 permanent
solution was subsequently agreed and this work took place during the summer recess.

The Corporate Body was pleased to be able to report that, despite the nature of the incident, thanks to the existing contingency plans and the effort of all involved, we lost only a few hours of parliamentary business.

4.2 Security Issues

4.2.1 Strategic Review of Security

The Strategic Review of Security took place throughout the year to review security provision across the buildings of the Scottish Parliament, identify those improvements or changes which appeared to be appropriate and to make recommendations. The Review was overseen by the Strategic Steering Group which included representatives from Lothian & Borders Police. The Group was also able to draw on, where appropriate, advice from the Security Service.

A final report was received from the Group in November and contained a number of detailed recommendations which are being taken forward.

4.3 Facilities Management

4.3.1 FM Helpdesk

During our first full year at Holyrood, the FM Helpdesk continued to be extremely busy in linking Members and staff with delivery of FM services. During this year, the Helpdesk answered approximately 6,000 calls per month.

Performance on this, and all FM services, was monitored throughout the year through the use of the ‘FM Dashboard’ which provides a wider perspective on FM’s performance in various areas. We are pleased to report that, over the year, the Helpdesk recorded a high level of performance.

4.3.2 Cleaning

Whilst regular checks on the quality of cleaning have been carried out since our arrival at Holyrood, customer surveys were introduced to ensure that the efforts being made by our contractor are acceptable to Members and all other personnel in the building complex.

Five building users are questioned each week as part of FM’s regular walk rounds. Six questions are asked which provide a score for both the standard of cleaning and the importance attached to it by the customer. This information is included in the ‘FM Dashboard’ on SPEiR.
4.3.3 **Environmental Management**

In May 2005 we agreed that an Environmental Management System (EMS) for the Parliament should be developed; an important step in this process was to develop an Environmental Policy. The Policy, which was communicated to all building users as well as being made available for members of the public, is an opportunity for the Parliament to present its environmental vision and to make a clear statement that the Parliament wishes to be viewed as an exemplar organisation in this field.

The Policy captures the key issues for the Parliament and includes commitments to reduce carbon dioxide emissions, minimise waste and conserve biodiversity. The Policy recognises the significant role of the Responsible Purchasing Policy in reducing the impact of products and services that are required by the Parliament but also that we shall work towards a reduction in consumption of resources to further reduce our environmental impact.

4.3.4 **Cycle Friendly Employer's Award**

In October 2005, we were awarded the Cycle Friendly Employer's Award by Cycling Scotland. The Parliament was only one of 5 Scottish employers to receive the award. The award recognises organisation which encourage their staff to cycle. The Parliament was assessed on its infrastructure (cycling parking, changing facilities), promotion of cycling (information for employees, travel survey, number of senior managers who cycle) and the incentives available (travel allowance paid, bike loan). To ensure we retain the award we continue to provide good quality facilities for cycling and encourage building users to cycle.

4.3.5 **Health and Safety**

Active monitoring, including planned inspections and audits is a valuable method for measuring the health and safety performance of an organisation.

Nominated persons from each office within the Parliament conduct a six monthly inspection of their workplace using a standard inspection form. The forms are collected by the Health and Safety section, and remedial action is arranged and followed up.

Common area inspections are conducted by small inspection teams which include the H&S Manager and stakeholders. This new programme uses standard inspection forms with a scoring system which will eventually provide trend data on H&S standards.
4.3.6 Fire Safety

The number of unplanned fire evacuations of the campus per month remains acceptably low, with only two of these having taken place during "business hours" during the past year. Evacuations have therefore caused minimal disruption to the business of the Parliament.

The regular testing of fire alarm call points and the voice alarm system is an essential legal requirement. It is also the most evident of the many testing and maintenance operations carried out to ensure fire safety in the campus. These fire alarm call point tests continue to be carried out on a weekly basis.

4.4 BIT

4.4.1 BIT Helpdesk

Taking onboard feedback from the Members’ Survey as well as the output from a recent survey of IT Helpdesk Services, the BIT Office launched a dedicated telephone number for the IT Service Desk. The launch of this service means that direct contact can be made with IT staff without having to go through the FM Helpdesk. An additional benefit is that it provides easier access to the extended hours service that the BIT Helpdesk currently offers on Tuesday, Wednesday and Thursdays.

This service was successfully launched in December 2005, and during the period of report received on average 82 calls a day.

4.4.2 Blackberry Roll Out

A project to offer wireless email devices to Members was rolled out at the beginning of this reporting period.

Blackberry wireless devices offer access to the Parliament messaging system through the mobile phone network, thus enabling real time delivery of email and calendar information for Members wherever there is a mobile phone signal.

The project attracted a large amount of interest from Members keen to better understand the benefits the device can bring. The project team received positive feedback on the initiative during information sessions held at the service desk in the Garden Foyer.

4.4.3 IT Training for Members’ staff

Over May and June we ran a series of IT training courses for MSP staff to support them in the use of the Parliament’s IT systems. Personnel and BIT have been working with our training provider to develop 3 training courses; Outlook, Office and Local Office Hardware. This ensured that the training was specifically tailored to meet their needs in the local office environment.
These sessions ran in Aberdeen, Ayr, Dundee, Edinburgh, Glasgow and Inverness to ensure that as many MSP staff as possible had access to the training.

The courses were met with a positive response from delegates. Delegates noted that the training gave them a better understanding of the functions available through the packages and this helped to simplify daily jobs and save time.
CONTACTS

Our previous Annual Reports are available on the Scottish Parliament website at: http://www.scottish.parliament.uk/corporate/anrep-accts/spcb/index.htm

If you have any questions about the Scottish Parliamentary Corporate Body (SPCB) in general or this Annual Report in particular, please contact the Secretariat as follows:

Judith Proudfoot, on ☎ 0131 348 5307 or
Linda Smith, on ☎ 0131 348 6222

(Calls via RNID Typetalk welcome)

For a copy of this Report in a language other than English or in an alternative format (for example in Braille, large print or audio tape), please send your enquiry to: The SPCB Secretariat, The Scottish Parliament, Edinburgh, EH99 1SP. You can also contact us by fax (on 0131 348 5259) or by email (at judith.proudfoot@scottish.parliament.uk or linda.smith@scottish.parliament.uk).
Members who would like a printed copy of this Numbered Report to be forwarded to them should give notice at the Document Supply Centre.
