End of Life Assistance (Scotland) Bill

James E. Powrie.

We oppose strongly the ELA Bill and believe it could have dangerous effects on the community.

We believe it degrades the value of human life.

It would open risk of elderly and infirmed persons giving away their lives thinking them to be liability to their families.

We note professional medical bodies and the British Medical Association do not support assisted suicide.

Please make our opposition strongly stated.

Thanking you,

James E. Powrie.
