I wish to express my total opposition to the ELA Bill and any other form of assisted suicide and euthanasia.

All human life is sacred from conception until natural death and to pass such a Bill would be fundamental change in the way society values human life.

For the medical profession it is a case of “Care Not Killing”. Assisted suicide is a false compassion and goes against the natural law.

Last year in the Netherlands it is estimated that there were approximately 900 involuntary cases of euthanasia – is this the road society wants to go down.
