End of Life Assistance (Scotland) Bill

Helena O'Donnell

I am writing in protest against this bill for many reasons including those highlighted by the Catholic Church, by other Christian denominations and I hope also by Muslim, Sikh, Jewish, and other religions as it goes against all that we believe.

It is my opinion that, as in the case of the abortion law, any scant safeguards will be ignored and the old, frail and sick will be killed with or without their consent.

Recent studies in psychology have shown that, not only do humans need to have Unconditional positive regard shown to them, but also that we require to show unconditional positive regard to others: It is in our make-up to care for others do not allow this Bill to take that from us.
