Dear Joanne Hamount MSP,

I am deeply concerned about the implications of the End of Life Assistance (Scotland) Bill, proposed by MSP Margo MacDonald.

I believe the bill is very dangerous and should be rejected, because it will lead to sick and disabled people feeling they are a burden, and it will put vulnerable and depressed people at risk of self-harm, and it is contrary to good medical practice.

I will be very grateful if you could consider the above and reject the bill. Thanking you,

Yours Sincerely,

Mrs Anne Crawford
